

You wouldn't buy a car with just one gear.

So, why would you purchase a single speed pool pump?

**THE MOST EFFICIENT** solution

The new VIRON variable speed pumps are the most efficient pumping solution for pools. The new VIRON concept makes it possible to adjust the pump's speed settings according to the needs of each particular pool and user.

**LEADING ENERGY** savings

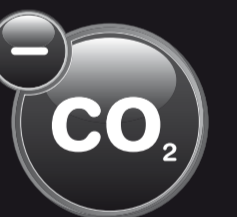

Quiet **OPERATION**

Noise level of the VIRON range is less than 63dB. A noise level imperceptible to the human ear.

**REDUCE** CO<sub>2</sub> **EMMISSIONS**

Reducing the environmental impact by saving up to a ton of CO<sub>2</sub> annually compared to single speed pumps.

**LONGER EQUIPMENT** life

**INTEGRATED** control

SAVE UP TO **900** €/YEAR IN POWER CONSUMPTION!
