## FEATURES

- 30 year proven track record
- Pressure tested to 60 psi (4 bar)
- Manufactured from the highest-grade materials
- Hi gloss - non-corrosive - FRP tank and base components
- Nine-Inch - Clear view - easy access - service lid
- Energy efficient collection and distribution pipe-work
- Speed style installation and service connections
- Easy access winter drain tap

Crystal clear, sparkling water is the most important feature of any swimming pool. A filter is by far the most efficient way to ensure perfect water quality for many years to come. Certikin filters can be used with standard Certikin 16/30-grade silica sand.

The Certikin Lacron range is designed to cater for all residential applications from small above ground pools, through to larger in ground domestic installations.
