

CTX-581 AlgaStop ultra Power

DESCRIPTION:

Fast-acting, non-foaming algicide compound used to prevent and remove algae.

This is a highly concentrated product with the following benefits:

Environmentally friendly

- Highly concentrated product.
- Less use of raw materials, packaging and energy in its production.
- 50% saving on CO₂ emissions in transporting it.

Application control and minimum waste management costs

- Exact control of product used (dispenser cap).
- Reduction in waste management cost (Ecoembes).

Minimum occupational risks

- Safe handling and no contact with the chemical product.
- 80% reduction in load weight.
- Easier, cleaner and more convenient.

70% saving on storage and transport space

- Reduction in product volume thanks to its high concentration.

PROPERTIES:

Appearance	Liquid
Colour	Navy blue
pH (concentrated at 20°C).	6.0 - 9
Density (20°C)... ..	1,065 - 0.05 g/cm ³

CHARACTERISTICS:

- Concentrated microbicide to eliminate all kinds of algae.
- Clarifies the water thanks to its flocculation capacity.
- Non-foaming compound.
- Compatible with most disinfection treatments.
- Fully soluble in water.
- Reduces chlorine consumption.
- Reduces unpleasant smells.
- Can be used with any kind of filter.

DISPENSING AND USE:

Initial dose: add 180 ml (3 x 60ml) of product for every 50 m³ of water.

Maintenance dose: add 60 ml of product for every 50 m³ of water once a week.

The initial dose must be repeated every time the water appears not fully transparent.

These guideline doses can be changed depending on the characteristics of each swimming pool, weather conditions, etc.

Pour the required product dose into a container with water and spread the solution all over the surface of the pool, preferably at dusk and with no swimmers in the water.
